II. Sending the Completed Form

There are three ways you can turn in a completed form. The first way is to **hit the submit button**. You also may **save a copy to your computer and add it as an attachment to your email**. Last, you can **print a completed copy and mail or fax it to your educator**.

Hitting Submit

Once you hit the **Submit** button, a window like the one to the left should appear. It will list the email address of the educator the completed form will be sent to, as well as the subject of the email and the name of the attachment. You will need to complete the **Email Address** and type your **Full Name** in the empty boxes. Then hit **Send**.

After hitting send, you will need to select one of two options that appear. If you choose **Desktop Email Application**, once you click the OK button your email will open with the fields filled out and the application attached. If you choose **Internet Email**, the document will save to your desktop and you will need to manually send an email with your application attached. The email address you will need is listed under that option.

Saving a Copy

If you click on the **Save a Copy** button in the upper, left-hand corner, a copy of the completed form will be saved to your computer. You can send the application by email to your local educator. Their email can be accessed from the [Peer Education](#) webpage.

Printing a Copy

If you choose **Print Form**, you can mail or fax the completed paperwork to your educator at their address or fax number listed below.
